

LANGMEAD ASSOCIATES – DUBAI FM EXPO 2010

Langmead Associates (www.langmeadassociates.com) is a business consultancy with headquarters in Bahrain and a branch office in Dubai, providing integrated strategic support, services and intelligent IT software systems, to the construction and property development sectors in the MEA region.

We see things completely, differently, and apply innovative business intelligence to deliver enhanced, controlled and sustainable property lifecycle performance.

Our MD, Mr Douglas Langmead will be a keynote speaker at the Dubai FM Expo on 18th May, talking on “Understanding Industry Stagnation – a new view of the development cycle and opportunities for the FM Industry in managing Stalled Projects”.

At our stand in Hall 8 (A50) we will be providing information and demonstrations of our “Hybern~8” corporate governance concept for mitigating risk in stalled projects using intelligent IT software support systems to rationalise, hibernate and revive stalled projects.

We shall be demonstrating:

www.webfm.com.au

WebFM's OMTrak a unique Web-based system which enables stress-free online production of operation and maintenance manuals with handover management and defect management modules

www.mainpac.com.au

Mainpac's AM & Enterprise CAFM systems support the O&M and costing lifecycles of individual buildings and major developments.

www.objectiveworld.com

Objective World's xD BIM systems are Life Cycle software systems that provide a user friendly, interactive and visual platform for Building Owners, Developers and Managers through Feasibility, Development, Design, Construction, Management & Maintenance and back again to Renovation or Redesign “what if scenarios”

www.langmeadassociates.com
